

## TRAINING ANNOUNCEMENT

**COURSE TITLE:** Tank Truck Emergency Response Workshop

**DATE:** March 22-23, 2017

**LOCATION:** Campbell County Fire Training Center  
10 Fire Tower Drive  
Highland Heights, KY

**TIME:** 8:00 AM – 5:00 PM

**COURSE DESCRIPTION:**

This 16-hour course taught by **Safe Transportation Training Specialist** is dedicated to tank truck emergency response and was designed with the fire service and emergency response community in mind.

STTS has gathered a unique collection of Cargo Tank Models, Props, Simulators and combined them with a multi-media presentation to facilitate a state of the art training experience that will be remember for years to come. Take a moment and click on our Course Objectives and Daily Schedule to get a detailed picture of our Workshops. The Cargo Tank Truck Replicas and Training Modules, that STTS brings into the classroom are hands-on props that were designed for the students to be able to operate and experiment with.

UPON COMPLETION OF THE WORKSHOPS THE STUDENT SHOULD BE ABLE TO:

- Determine the Correct Specification of a cargo tank.
- Understand Basic Construction Features of Cargo Tanks.
- Understand the purpose and Function of Safety Devices Associated with Cargo Tanks.

- Understand the Basic Operating Principles of Cargo Tanks.
- Understand the Liquid and Vapor Dynamics Associated with Cargo Tanks.
- Understand the Basic Principles that Govern Emergency Loading and Unloading.
- Be Familiar with Containment Techniques Associated with Specification Cargo Tanks.
- Understand Critical Elements of Cargo Tank Emergency Management.

(This workshop exceeds OSHA 1910.120 requirements for annual refresher training)
