Rail Car Incident Response for Crude, Ethanol and Other Flammable Liquids April 3, 2019 - 8:00am-5:00pm (EST) Kenton County Training Center 4415 Boron Drive, Covington, KY 41015

Course Description:

This class is designed to enhance the ability of emergency responders to assess the scene of a rail car incident, understand the resources needed to remediate the emergency situation, including how the railroad will play a critical role in the response. Course will begin from 8:00am-5:00pm eastern time. Hands-On Scenarios using a rail car simulator are conducted to emphasize the objectives of the training including:

- Identifying the design, construction, components and markings of rail tank cars that carry crude/flammable liquids
- Recognizing and identifying the chemical being transported, and the properties that must be considered in an emergency
- Assessing the scene to determine the potential hazards to people, property, and the environment
- Recognizing mitigation strategies including offensive, defensive, and non-intervention strategies for fire and/or spill incidents
- Identifying key resources in the rail/freight industry as well as federal, state, and private resources for response assistance

Student Criteria:

This course is open to all Emergency Management, Safety Officers, Rescue, Fire, Emergency Medical, Environmental and Law Enforcement personnel or organizations having responsibility for mitigation of a hazardous materials incident.

Special Notes:

Advance student registration is REQUIRED and must be received by March 20, 2019 in order to participate in this course. Maximum of student seats available is forty (40). You are considered accepted as a student in this class upon receipt of your application. Meals, lodging, and travel arrangements/expenses are the responsibility of the student and will NOT be reimbursed by KYEM unless otherwise noted.

Registration:
