G386 Mass Fatalities Incident Response **January 8-9, 2024** **Rescue Squad Building** **201 Ash Street** **Benton, KY 42025**

Course Description

This awareness level course is designed to provide local and county law enforcement agencies, public health managers and planners, local and regional emergency management agencies, emergency medical services, hospitals, paid or volunteer emergency planners and managers, and personnel in local and/or county emergency operations centers in rural communities, with basic knowledge should a mass fatality incident impact their jurisdiction. The Mass Fatalities for Rural Communities course serves as a training tool to provide rural communities with information to manage an actual mass fatality response and to assist in the development of a mass fatalities response plan for their jurisdiction. The process of recovery, identification, and disposition of human remains following a mass fatality event will differ from the “normal” daily operations to which local authorities are accustomed. Understanding and appreciating these differences and the dynamics of a mass fatality will enable the rural communities to respond in an efficient manner and provide the assistance and guidance needed by the affected community. **Course will begin at 9:00 am CST and will conclude at 5:00 pm EST each day.**

Student Criteria

This course is open to all Emergency Management, Coroners, Rescue, Fire, Emergency Medical, and Law Enforcement personnel, or other organization having responsibility for a possible response in a mass fatality incident.
