Rail Car Incident Response for Crude, Ethanol and Other Flammable Liquids  
Saturday - June 1, 2019  
8:00am-5:00pm (CST)  
Pembroke Fire Department  
118 Maple Street, Pembroke, KY 42266

Course Description:
This class is designed to enhance the ability of emergency responders to assess the scene of a rail car incident, understand the resources needed to remediate the emergency situation, including how the railroad will play a critical role in the response. Course will begin from 8:00am-5:00pm central time. Hands-On Scenarios using a rail car simulator are conducted to emphasize the objectives of the training including:

- Identifying the design, construction, components and markings of rail tank cars that carry crude/flammable liquids.
- Recognizing and identifying the chemical being transported, and the properties that must be considered in an emergency.
- Assessing the scene to determine the potential hazards to people, property, and the environment
- Recognizing mitigation strategies including offensive, defensive, and non-intervention strategies for fire and/or spill incidents
- Identifying key resources in the rail/freight industry as well as federal, state, and private resources for response assistance

Student Criteria:
This course is open to all Emergency Management, Rescue, Fire, Health, Environmental, Public Safety and Health, Emergency Medical, Law Enforcement personnel or any organization having responsibility for a hazardous materials incident.

Special Notes:
Advance student registration is REQUIRED and must be received by May 18, 2019 in order to participate in this course. Maximum of student seats available is twenty-four (24). Meals, lodging, and travel arrangements/expenses are the responsibility of the student and will NOT be reimbursed by KYEM unless otherwise noted.

Registration:
