HazMat Transportation Incident Responder Workshop **4820 Olympic Boulevard, Erlanger, KY 41018** **March 16-18, 2020** **8:00am-5:00pm (Eastern)**

Course Description:

This 16 hour workshop focuses on the fundamentals and skills associated with emergency response to hazmat transportation incidents. Participants will learn the basis for monitoring and screening for hazards, collecting samples, hazard characterization, contaminant identification, data types, collection methods and ultimate utilization of data for decision making. Participants will also review the major elements of performing the role of Safety Officer on a HAZMAT incident and will review electronic systems for incident response forms.

Course will cover:

- Chemical Hazards and Characterization
- Sampling and Analysis during a HazMat transportation incident
- Hazard Identification and Risk Characterization
- Further integrating safety protocols into HazMat response

Student Criteria:

This course is open to all Emergency Management, Rescue, Fire, Environmental, Emergency Medical, and Law Enforcement personnel or any organization having responsibility for responding to a hazardous materials incident. Recommended prerequisites beneficial to the student: HazMat Awareness and Operations. You **MUST** be at least 18 years old to register for this class.

Special Notes:

Advance student registration is **REQUIRED** in order to participate in this course. You are considered accepted as a student in this class upon receipt of your application by this office so you will not receive a letter acknowledging that acceptance. Meals, lodging, and travel arrangements/expenses are the responsibility of the student and will **NOT** be reimbursed by KYEM unless otherwise noted.

Registration:

Registration application for the course can be completed using the following link:
