#### **Course Description**

The Awareness Class is designed to provide Awareness-Level Training for first responders. It is for responders who are likely to witness or discover hazardous material release and will initiate a response sequence by notifying the proper authorities of the release. It will concentrate on detecting a hazardous situation and making the appropriate calls to secure the scene and prevent contamination. You will also learn how to use the Emergency Response Guidebook. The OSHA 1910.120 standard outlines the minimal training required of each employee that has the potential of witnessing or discovering a hazmat incident. From informal detection methods to protective actions, your personnel will be fully informed of their responsibilities and have the knowledge to safely carry out the duties of the hazmat awareness level.

#### **Student Criteria**

This course is open to all Emergency Management, Rescue, Fire, Emergency, Medical, and Law Enforcement Personnel, or any organization having community responsibility. CSEPP personnel have priority. There are no pre-requisites for this course.

#### **Special Notes**
